

# Synthetic Materials Clinic

**April 11 & 12,  
2023**

**8:30 - 5:00pm**

**With Dr. Simon  
Curtis**

This two-day clinic consists of knowledge and skills. The learning outcomes will give you a deeper understanding of the various synthetic materials available; when, how and the skills to use them.

With no financial interest in any of them; you will get direct guidance from Simon. There will be demonstrations of their use and the opportunity for you to try them as well as hoof curettage.

**This hands-on clinic is restricted to just 10 participants**
